## ECONOMIC REVIEW

Headline inflation rose to 5.8% YoY in Jan`26, up from 2.4% in Jan`25, reflecting increased price pressures across food, housing, clothing, and health. On a MoM basis, CPI inched up 0.4%, driven mainly by quarterly house rent adjustments, while transport costs eased due to lower fuel prices. As a result, average inflation for 7MFY26 eased to 5.2%, down from 6.6% in the same period last year, signaling moderation in overall price pressures. In the MPC meeting held on 26th January 2026, the SBP kept the policy rate unchanged at 10.5%, citing easing inflation and stable economic growth while maintaining a cautious stance. Externally, Pakistan recorded a current account deficit of USD 244mn in Dec`25, compared with a surplus of USD 454mn in Dec`24, as imports rose sharply while exports grew modestly. During 1HFY26, the current account deficit stood at USD 1,174mn, versus a surplus of USD 957mn in the same period last year. As of January, SBP's FX reserves stood at USD 16.1bn, with total FX reserves at USD 21.3bn. The PKR appreciated slightly by 0.13% MoM, closing the month at PKR 279.77/USD, supported by stable reserves. Ongoing geo-political tensions, including US-Iran issues and Pakistan's involvement in the Gaza Board of Peace, continue to contribute to market volatility. The economic outlook remains cautiously positive, supported by stable growth and fiscal revenue measures, though external sector pressures and a widening current account deficit pose risks. Sustainable growth will depend on effective policies, fiscal discipline, and managing geo-political and macroeconomic challenges.

## MONEY MARKET REVIEW

Ahead of the MPC meeting on 26 January 2026, market yields had been declining amid expectations of a policy rate cut. However, the SBP's decision to maintain the policy rate at 10.5% reversed this trend, leading to a moderate increase in secondary market yields across all tenors. Short-term yields edged higher, with the 3-month, 6-month, and 1-year yields rising to 10.2%, 10.33%, and 10.35%, respectively. Longer-dated yields also moved up, with the 5-year and 10-year yields settling around 10.61% and 11.10%. Two T-bill auctions were conducted during the month before the MPC Announcement, with cut-off yields declining by 59bps, 59bps, 53bps, and 49bps for the 1-month, 3-month, 6-month, and 12-month tenors, closing at 9.90%, 9.90%, 9.95%, and 10%, respectively. The government raised PKR 1,705 bn. It is likely that cut offs would increase going forward. In the fixed PIB auction, PKR 491.9bn was raised against a PKR 450bn target. Additionally, the government raised PKR 108bn through floating PIBs, PKR 62.71bn via GIS-FRD, PKR 287bn from GIS-FRR, and PKR 35bn from GIS-VRR. Although the SBP maintained the policy rate at 10.5% in its 26th January 2026 MPC meeting, the SBP is expected to maintain a cautious stance going forward. Short term market yields are likely to remain soft, supported by improved liquidity conditions and the current policy setting.

## EQUITY MARKET REVIEW

Pakistan's equity market closed January on a positive note, with the KSE-100 Index ending the month at 184,175 points, posting a monthly gain of 5.81% and 10,120 points. The performance was driven by improving liquidity and ongoing corporate results. Positive momentum persisted despite geopolitical concerns and the absence of a policy rate cut. Average daily volume increased to 477mn shares in January from 360.9mn in December, while average daily traded value rose 50% to PKR 47.01bn from PKR 31.44bn. Foreign investors were net sellers of USD 66.23mn. Domestically, Mutual Funds led buying with USD 195mn, followed by Companies USD 44mn and Individuals USD 24.143mn. Banks and Insurance net sales of USD 182.48mn and USD 20.048mn, respectively. Overall market sentiment remains positive, supported by stable external conditions, ongoing reform momentum, and strong corporate results, although geopolitical tensions could act as a constraint. Rising investor confidence and a gradual recovery in domestic demand are likely to support market performance in the near term.

## FUND MANAGER'S COMMENTS

Pakistan's equity market closed January on a positive note, with the KSE-100 Index ending the month at 184,175 points, posting a monthly gain of 5.81% and 10,120 points. The performance was driven by improving liquidity and ongoing corporate results. Positive momentum persisted despite geopolitical concerns and the absence of a policy rate cut. Average daily volume increased to 477mn shares in January from 360.9mn in December, while average daily traded value rose 50% to PKR 47.01bn from PKR 31.44bn. Foreign investors were net sellers of USD 66.23mn. Domestically, Mutual Funds led buying with USD 195mn, followed by Companies USD 44mn and Individuals USD 24.143mn. Banks and Insurance net sales of USD 182.48mn and USD 20.048mn, respectively. Overall market sentiment remains positive, supported by stable external conditions, ongoing reform momentum, and strong corporate results, although geopolitical tensions could act as a constraint. Rising investor confidence and a gradual recovery in domestic demand are likely to support market performance in the near term.
